

# GROWMORE

## Multi-purpose Plant Food Balanced feed for use all around the garden

A multi-purpose plant food with an even balance of nutrients to feed all the plants in your garden. It can be used when preparing new beds and to provide essential nutrients throughout the growing season. It can also be used in the preparation of new lawns.

### General Plant Feeding

Scatter 70 gm per square metre (2 oz per square yard) on to the soil.

Lightly fork or hoe in and water well if the soil is dry.

Repeat once a month throughout the growing season.

### Preparing Beds, Borders and Vegetable Plots

Scatter 140 gm per square metre (4 oz per square yard) on to the soil 7 to 10 days before planting or sowing.

Fork in well and water thoroughly if the soil is dry.

For salad crops use half the quantity.

### Preparing New Lawns

Scatter 70 gm per square metre (2 oz per square yard) on to the soil 7 to 10 days before sowing seeds or laying turf.

Lightly fork or hoe in and water well if the soil is dry.

### Containers

Use a liquid feed instead of this product.

## Application Advice

Use gloves when using this product.

Use the recommended amount.

Apply evenly between the plants, without touching the plant itself.

Water well in after applying.

Wash hands after use and avoid contact with skin.

## Storage

Store in a cool, dry place away from children, pets and foodstuffs.

### UK Fertilizer Declaration

#### NPK Fertilizer 7 – 7 – 7

Total Nitrogen (N)	7.0%
Ammoniacal Nitrogen	7.0%
