

JEYES FLUID

DIRECTIONS FOR OUTDOOR CLEANING

DRAINS

Neutralizes odours and kills the bacteria which cause the odours.

- Application – Use neat in outdoor drains. This will disinfect as it cleans removing germ-laden grease and dirt. Rinse thoroughly.

CANES, LABELS, SECATEURS, KNIVES & STRING

- Application – To disinfect, wipe over with 10 ml per litre of water, leave for 5 minutes then rinse off.

WATER BUTTS

Prevents the build up of slime in water butts.

- Application – Scrub with a solution of 15 ml to 5 litres of water to clean. To freshen water, add 5 ml *Jeyes Fluid* to a full water butt.

GREENHOUSES

- Application – Remove all plants (cover over perennials, vines, etc.). Then wash down all glass, glazing bars and shelving with 35 ml per 5 litres of water. Ventilate and allow to dry before reintroducing plants. *Jeyes Fluid* may discolour paintwork and plastics. Test on a small area prior to use.

COLD FRAMES, GLASS CLOCHES

- Application – Wash frames and cloches with a solution of 35 ml per 5 litres of water. Do not use on polystyrene.

PLANT POTS AND SEED BOXES

- Application – Wash seed boxes with a solution of 35 ml per 5 litres of water. Soak plant pots for 30 minutes in a dilution of 35 ml per 5 litres then rinse off. Do not use on polystyrene.

KILLING MOULD, ALGAE AND FUNGI ON CONCRETE PATHS AND PATIOS

- Application – Use 150 ml per 5 litres of water and apply sufficient to thoroughly wet the affected surfaces. Allow 30 minutes and then rinse off with water and scrub with yard brush. For light-coloured stones, try 50 ml per 5 litres to avoid staining. Test a small area first.

KILLING MOULD, ALGAE AND FUNGI ON TARMAC AREAS, REMOVING STAINS AND MILDEW

- Application – Use 125 ml to 5 litres of water from a watering can and apply sufficient to thoroughly wet the affected surfaces. Check a small area for softening first. If it does soften, try 60 ml to 5 litres and repeat after 1 month.

DUSTBINS

For outside bins, wheelie bins, etc. we recommend *Jeyes Freshbin Powder*.

ON THE FARM

Spray wash, floors, walls, etc., of kennels, stables, cattle stalls, piggeries, hutches, poultry houses (not catteries) with a dilution of 65 ml *Jeyes Fluid* per 5 litres of water (ensure premises are dry and well ventilated before returning bedding and animals). Feeding and drinking utensils should be regularly cleansed and disinfected with 15 ml of *Jeyes Fluid* per 5 litres of water.

TO AVOID THE RISK OF TAIN IN MILK, THIS PRODUCT SHOULD NOT BE USED OR STORED IN OR NEAR TO DAIRY COW HOUSING AND MILKING PREMISES, FARM DAIRIES OR WHERE MILK OR MILK PRODUCTS ARE HANDLED OR STORED.

SAFETY

1. Apply away from fish and pets, especially cats.
2. Store in a warm place, protect from frost.
3. *Jeyes Fluid* may stain or soften some plastics or discolour brick and paintwork. Test a small area first.
4. Do not exceed recommended concentrations.
5. Not for indoor use.
6. If spilled, wash away immediately with plenty of water.
7. SHAKE WELL BEFORE USE.
8. Avoid contact of product with plant life.
9. Do not use if pregnant.
10. Use only as directed.
