

# MAXICROP ORIGINAL SEAWEED EXTRACT

- ◆ Maxicrop Original Seaweed Extract is a plant growth stimulant, for use in organic growing systems — a pure extract of seaweed in an easy-to-use liquid form.
- ◆ Ideal for flowers, fruit, vegetables, shrubs and trees, in the home, garden, allotment, or for professional use.
- ◆ Stimulates natural growth processes: seed germination, plant rooting and establishment.
- ◆ Gives strong healthy growth. Improves resistance to pests, diseases and environmental stress.
- ◆ Use early as a root drench or foliar spray and later, with fertilizers, to help ensure maximum nutrient uptake.

## **DIRECTIONS: SHAKE BEFORE USE**

**ADD REQUIRED AMOUNT TO WATER AND STIR WELL.**

**APPLY USING WATERING CAN, FINE SPRAYER OR HOSE-END DILUTOR.**

**MAY BE USED WITH LIQUID OR SOLUBLE FEEDS.**

**RESEAL BOTTLE AFTER USE.**

**PROTECT FROM FROST.**

**STORE OUT OF DIRECT SUNLIGHT ABOVE 0°C AND BELOW 30°C.**

<b>TREATMENT</b>	<b>DILUTION IN WATER</b>	<b>APPLICATION</b>
<b>Germinating</b>	10 ml in 9 litres (2 gallons)	Soak seeds for 12 hours before sowing.
<b>Propagating</b>	20 ml in 9 litres (2 gallons)	Apply as a root drench each time water is needed.
<b>Transplanting</b>	20 ml in 9 litres (2 gallons)	Drench rootball in solution before planting out.
<b>Growing on</b>	45 ml in 9 litres (2 litres)	Apply as a root drench or foliar spray, thoroughly wetting leaves, every 7 days.
<b>Mature Plants</b>	45 ml in 9 litres (2 gallons)	Apply as a root drench or foliar spray, thoroughly wetting leaves, every 10 to 14 days during growing.
<b>Fruit crops</b>	45 ml in 9 litres (2 gallons)	Spray several times before and during flowering to improve fruit set.
<b>Lawns &amp; Turf</b>	50 ml in 9 litres (2 gallons) per 20 sq. metres	Apply monthly during the growing season to aid turf health and stress resistance.
