

ROSE FERTILIZER

NPK Fertilizer with trace elements 5 – 5 – 10

Rose Food contains all the essential nutrients and trace elements for healthy plants and promotes abundant blooms. Extra magnesium is included for richer, greener leaves. It is also suitable for feeding trees and shrubs.

Established Roses

- Sprinkle 135 gm per square metre (4 oz per square yard) evenly over the soil.
- Lightly fork or hoe in.
- This is best done in mid-March or at the first sign of growth.

Before Planting

- Apply 70 gm per square metre (2 oz per square yard) over the planting area.
- Fork well in.

Planting Patio Containers

- Mix 28 gm (1 oz) with two or three handfuls of compost or soil.
- Fill the bottom third of the pot with the mixture, position the rose and top up with compost or soil.

Care of Container Grown Roses

- Sprinkle 20 gm around the rose (about a level tablespoon).

Application Advice

- Use the recommended amount.
- Apply evenly between the plants, without touching the plant itself.
- Avoid using on windy days.
- Water well in after applying.
- Wash hands after use.

Storage

Store in a cool, dry place away from children, pets and foodstuffs.

Analysis

Total Nitrogen (N)	5.0%
Ammoniacal Nitrogen (N)	5.0%
Phosphorus Pentoxide (P ₂ O ₅)	
soluble in neutral ammonium citrate and water	5.0% (2.1% P)
soluble in water	4.5% (2.0% P)
Potassium Oxide (K ₂ O) soluble in water	10.0% (8.3% K)
Total Boron (B)	0.01%
Total Copper (Cu)	0.002%
Total Iron (Fe)	0.02%
Total Manganese (Mn)	0.01%
Total Molybdenum (Mo)	0.001%
Total Zinc (Zn)	0.002%

To be used only where there is a recognized need.
Do not exceed recommended application rate.
